ULLL SERVICES

- **Three different modalities of training: face to face, online, and hybrid.**

Students have the possibility to access their courses through our Moodle platform. Moodle platforms offer an excellent learning environment for self-directed learning and social learning through online forums. Moreover the virtual classrooms coordinators offer assistance and guidance to learners.

For the face to face the classrooms are equipped with whiteboards, audio system, computer connected to the Internet and a video projector. We also have a video conferencing room University campus offer diverse scientific and cultural events geared toward the Madrid community. with the latest technological advances.

- **Library <https://www.uc3m.es/library/home>**

- **Cross-cutting activities**

The aim of the Cross-cutting Activities is to promote the student's skills in subjects related, above all, to employability (CV, job interview, presence in social networks, etc.).

Furthermore, these activities encourage the interaction among students to define and study the situation in each professional sector.

- **Employment and internships**

UC3M offers the **Guidance & Employment Service** which will provide work placements in companies or institutions, a Job Exchange and an Entrepreneurial Programme to get started in the business world.

- a. Practical internships or work placements in host companies
- b. Guidance & Employment
- c. Employment opportunities and job exchange
- d. Start up with UC3M

- **Disabilities and SEN**

The Tutoring Program for students with disabilities allows direct attention to the specific needs of these students.

Its objective is to guarantee the access and integration in equal conditions of all the students and, in turn, to collaborate in the construction of a university more solidary and better for all.

- **The university card**

Identification as a member of the University community, whether as a student or as a member of the faculty or administrative staff.

Access to library services.

Access to IT facilities.

Access to buildings and spaces dedicated to activities related to collectives within the University Community.

- **Accommodation**

Shared flats, halls of residence, families... on the webpage, is provided all information regarding the different types of accommodation.

- **Cafeterias**

The university cafeterias provide a place to meet friends and colleagues and take a break. Its offer is wide and consists of cafeteria service, fast food, daily self-service menu, with dietary and vegetarian menu options; as well as a la carte menus and business breakfasts.

- **Reprography**

Services of photocopying, binding, laminating, printing in general and remote printing from computer classrooms and offices, book publishing and sale of publications.
