Department for Health Sciences, Medicine and Research

... Mission Statement

The Department of Health Sciences and Medicine and Research meets the challenge of combining clinical research on the therapeutic effectiveness of conventional medicine with methods of TCM and complementary medicine– aiming at promoting evidence based practice and an evidence based approach for the latter.

- Traditional Chinese Medicine

Figures and Facts

Center for Health Sciences and Medicine

3 Special Fields

- Nursing Science
- Medical Technical Specializations
- Medical Specialisations and Health Promotion

18 staff members

732 students

41 Study Programs

- Certified Program: 8
- Academic Expert: 8
- Master of Science: 25

Nursing Science

7 staff members

235 students

17 Study Programs in the fields of

- Advanced Nursing Practice
- Nursing Management
- Health Councelling
- Nursing Education

Medical Technical Specializations

3 staff members

156 students

4 Study Programs in the fields of

- Physiotherapy
- Musculoskeletal Physiotherapy
- Neurophysiotherapy
- Logopaedics

Medical Specialisations and Health Promotion

7 staff members

352 students

20 Study Programs in the field of

- Clinical Nutrition
- Clinical Research
- Nutrition and Sports
- Sportsmedicine
- Orthopaedics and Traumatology
- Neuroorthopaedics
- Geriatrics
- Patient Blood Management
- Chiropractic
- Intestinal Health

Aims for Students

Acquire

- ❖ Expertise
- ❖ Management Skills
- ❖ Social Skills
- ❖ Science Skills

Personal Success

Academic Degree – Master of Science
Professional development

Knowledge

Scientific findings
Taking responsibility

Experience

Friends, Alumni
Family

Thank you!
